

Dear Sir, It is really nice to see the new website of BAS, it is more informative, up to date, may be more interactive. But still there is an ample scope to improve it further.

Nice to see that all its executives have got individual email in the website, not using free e-mail.

Most heartening is to see Professor Kaykobad as its Associate secretary. We find him highly critical of our politicians in his column. Hope he will be equally critical of BAS helping it to be more dynamic and effective Academy so that it can play its due role in the scientific advancement of Bangladesh .

Best regards and wishes
